Interference No. 104,083
Martin v. Cragg

March 1, 1999. Based on party Martin's failure to take testimony, party Cragg has filed a miscellaneous motion for judgment or a show cause order under 37 CFR § 1.652.

In a telephone conference conducted at 2:45 PM, March 8, 1999, between administrative patent judge Jameson Lee and counsel to the respective parties, Mr. Peter Davis, counsel to party Martin, indicated that the failure to serve its case-in-chief evidence was not inadvertent and that the junior party would have no objection to the Board's entering adverse judgment against party Martin on the basis that its case-in-chief evidence was not served. Accordingly, entry of judgment against party Martin is now appropriate.

It is **ORDERED** that judgment as to the subject matter of count 1 is entered against junior party Martin and awarded in favor of senior party Cragg.

It is **ORDERED** that Eric C. Martin is not entitled to a patent containing claim 1 of his involved patent, which corresponds to count 1.

It is **ORDERED** that on this record, Andrew H. Cragg and Michael D. Dake are entitled to a patent containing their application claim 89 which corresponds to the count.

It is **ORDERED** that upon return of party Cragg's involved application to the primary examiner, party Cragg shall inform the

Martin v. Cragg

examiner of the administrative patent judge's decision (Paper No. 20) granting party Cragg's motion to correct inventorship (Paper No. 16), and request that the correction, inclusive of the accompanying petition and amendment, be processed and entered in the official file of party Cragg's involved application.

It is **FURTHER ORDERED** that in light of this entry of judgment, party Cragg's motion for judgment or an order to show cause why judgment should not be entered against party Martin is dismissed as moot.
